

## **SECOND ADDENDUM TO REQUESTS FOR QUALIFICATIONS SCOTTSDALE AIRPORT ENGINEERING SERVICES**

Request for Qualifications Issued July 17, 2006  
First Addendum is dated July 28, 2006

This Second Addendum is dated August 7, 2006

NOTICE IS HEREBY GIVEN that the above-referenced Request for Qualifications is clarified and modified in the following manner:

1. On Page 5 of the Request for Qualifications in the section titled “2) Submitters Information” first paragraph, remove “Submitter Information From in the first sentence and replace with the following:

“Addendum Acknowledgement Form.”

2. This paragraph is intended to provide additional clarification on several changes identified in the First Addendum dated July 28, 2006.

The use of subconsultant engineering services was added to several sections along with the already included subconsultant planning services. As indicated in the First Addendum paragraphs 1 and 2, the subconsultant firm(s) “...will be primarily responsible...” and perform “...the majority of the production work...”. These criteria would be for the total of all types of engineering and/or planning services necessary for the completion of those projects indicated on page 2 of the Request for Qualifications and not each individual engineering and/or planning discipline. Therefore, submitters may only identify one subconsultant engineering firm and/or one subconsultant planning firm.

Except as modified by the First and Second Addendums, the Request for Qualifications is unchanged. Each submittal must include written acknowledgment of this First and Second Addendums. Accordingly, complete and sign the Addendum Acknowledgement Form included as page 10 of the Request for Qualifications.
